

FIND YOUR RING SIZE

Have you ever wanted to buy a ring online, but not known what your, or your partner's, ring size is? Well, worry no longer. This handy ring size guide takes the guesswork out of finding the right ring size for you.

MEASURE AN EXISTING RING

1. Select an existing ring that fits your finger.
2. Place the ring over the circles below until the inside circumference of the ring matches a specific circle.
3. If your ring falls in between two sizes, consider the width of the band. A wider band may require a slightly larger ring size.

UK Size	K	L	M	N	O	P	Q	R	S
US Size	5 ¹ / ₈	5 ¹ / ₂	6	6 ¹ / ₂	7	7 ¹ / ₂	8	8 ⁵ / ₈	9 ¹ / ₈
EU Size	50	51 ³ / ₄	52 ³ / ₄	54	55 ¹ / ₄	56 ¹ / ₂	57 ³ / ₄	59	60 ¹ / ₄
Diameter (mm)	15.8	16.1	16.5	16.9	17.3	17.7	18.2	18.6	19.1

If you get the ring size wrong for any reason don't worry, as returns and exchanges are simple.

Expert tip: fingers are larger when they are warm and at the end of the day, so it's best to measure then to make sure the ring band will be loose enough.

Before printing, make sure that the page scaling is set to 'None' in your print options.
Please ensure you are printing on standard A4 sized paper (210 x 297mm).
